METASE MAIL ART PROJECT 2022 / Seiko Aoki

Dear Participants_  _____

Thank you for your participation in "Metase Mail Art Project 2022".

The following is my minimum intent for this project.

This is a holistic effort to make the whole art including the collaborative art that goes back and forth between artists by mail, the trajectory of space-time that the art travels, and all the people involved.

● First, paste "Kakera" (a piece of my art) anywhere you like on the drawing paper. Then, feel free to add something and express yourself on paper at that moment. Have fun!

You can complete your art but, don't need to complete it as the next person will also add something. Enjoy your expression at that moment!

● **Copyleft** : Can be shared and modified. However, please be careful about personal safety by keeping the personal information of the address of the envelope and the sender part private when sharing it on SNS etc.

Art will also be transferred, but this time it will be returned to me and then transfer it to another artist in another envelope, so don't worry if the destination is your personal name or address.

● **Deadline** : The deadline is July 7, 2022. When this day is approaching, please return it to the sender Seiko Aoki in time for the deadline.

● **Return method** : We will use the envelope as part of the art without throwing it away. Please correct the address and sender, replace TO and FROM, and return to me.

● **Enter the artist name** : Please sign your name that we can publish, on the back of the work. Pen name and business name are possible.

● **Data sharing** : As for data such as art photographs, all participants can share the pictures in the middle of the process.

Final data will be provided to participants, and freely used for postcards, calendar creation, picture books, etc. (commercial use is also possible). It might be nice to make the same thing together. Please make a suggestion.
